DETAILED ACTION

Claims 1-13 are pending in this application.

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on February 20, 2004 and October 5, 2005 was noted and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant recites "less than about 10 weight %" in claim 1, which is unclear to the examiner. Is it "less than 10 weight %" or is it "about 10 weight %". Clarification and correction is requested.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

Art Unit: 1616

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148

USPQ 459 (1966), that are applied for establishing a background for determining

obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
 2. Ascertaining the differences between the prior art and the claims at issue.
 3. Resolving the level of ordinary skill in the pertinent art.
 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
3. Claims 1-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leung et al. (US 7,025,983).

Determination of the scope and content of the prior art

(MPEP §2141.01)

Leung et al. teaches dissolvable films comprising water-soluble film forming polymers such as pullulan (abstract). Column 4, line 66 through column 5, line 14 teach other film-forming agents such as hydroxypropylated starches. Leung et al. disclose in column 6, lines 21-54 and column 7, lines 8-47, examples of sweeteners and flavoring agents that can be used in the film. Leung et al. disclose in column 11, lines 45-61 a method of making a dissolvable film comprising mixing the film-forming ingredients and aqueous mixture to form a polymer gel, adding the oil mixture (substrate) to the gel and drying the mixture to form a film.

Art Unit: 1616

Ascertainment of the difference between the prior art and the claims

(MPEP §2141.02)

Leung et al. do not teach the substance being encapsulated.

Finding of prima facie obviousness

Rational and Motivation (MPEP §2142-2143)

Applicant recites in claim 6 that that encapsulated substance is a volatile substance. A volatile substance is a substance that vaporizes or evaporates quickly. Since the claimed substance is volatile, it would have been obvious to one of ordinary skill in the art at the time the invention was made to encapsulate a volatile substance for the purpose of reducing the evaporation of the substance. Reducing the evaporation would allow the substance to be used at maximum strength for its intended purpose.

Conclusion

4. Claims 1-13 are rejected.
